

# INSPIRED BY OUR INFINITE ISLAND

 **LANKATILES**

@

ARCHITECT 2025

We created an entire industry for Sri Lanka  
where there was none before.  
We built that industry on Sri Lankan resources  
and the skill of our people.

Today, that industry not only adds value  
to the lives of Sri Lankans but has also become  
a globally renowned brand, and a part of the  
global architectural fabric.

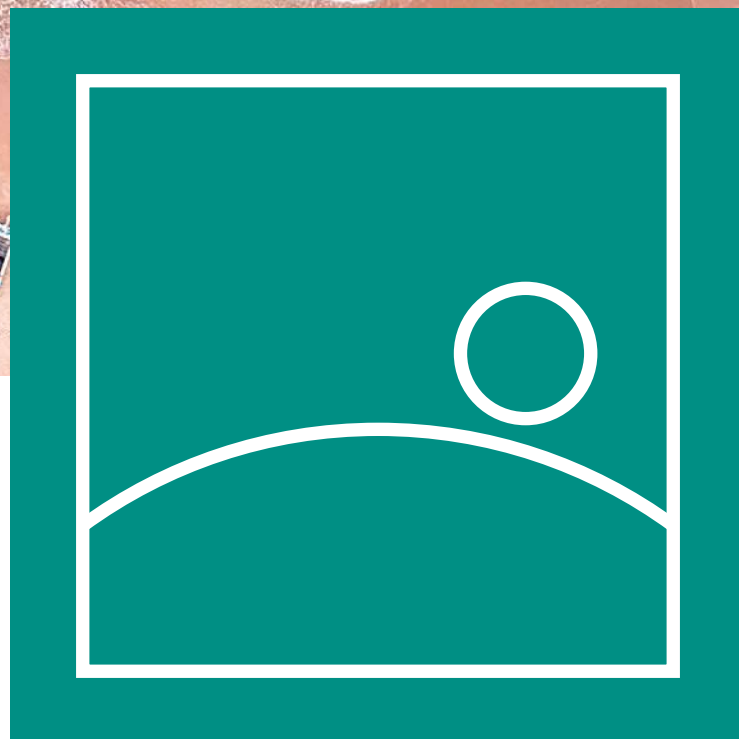

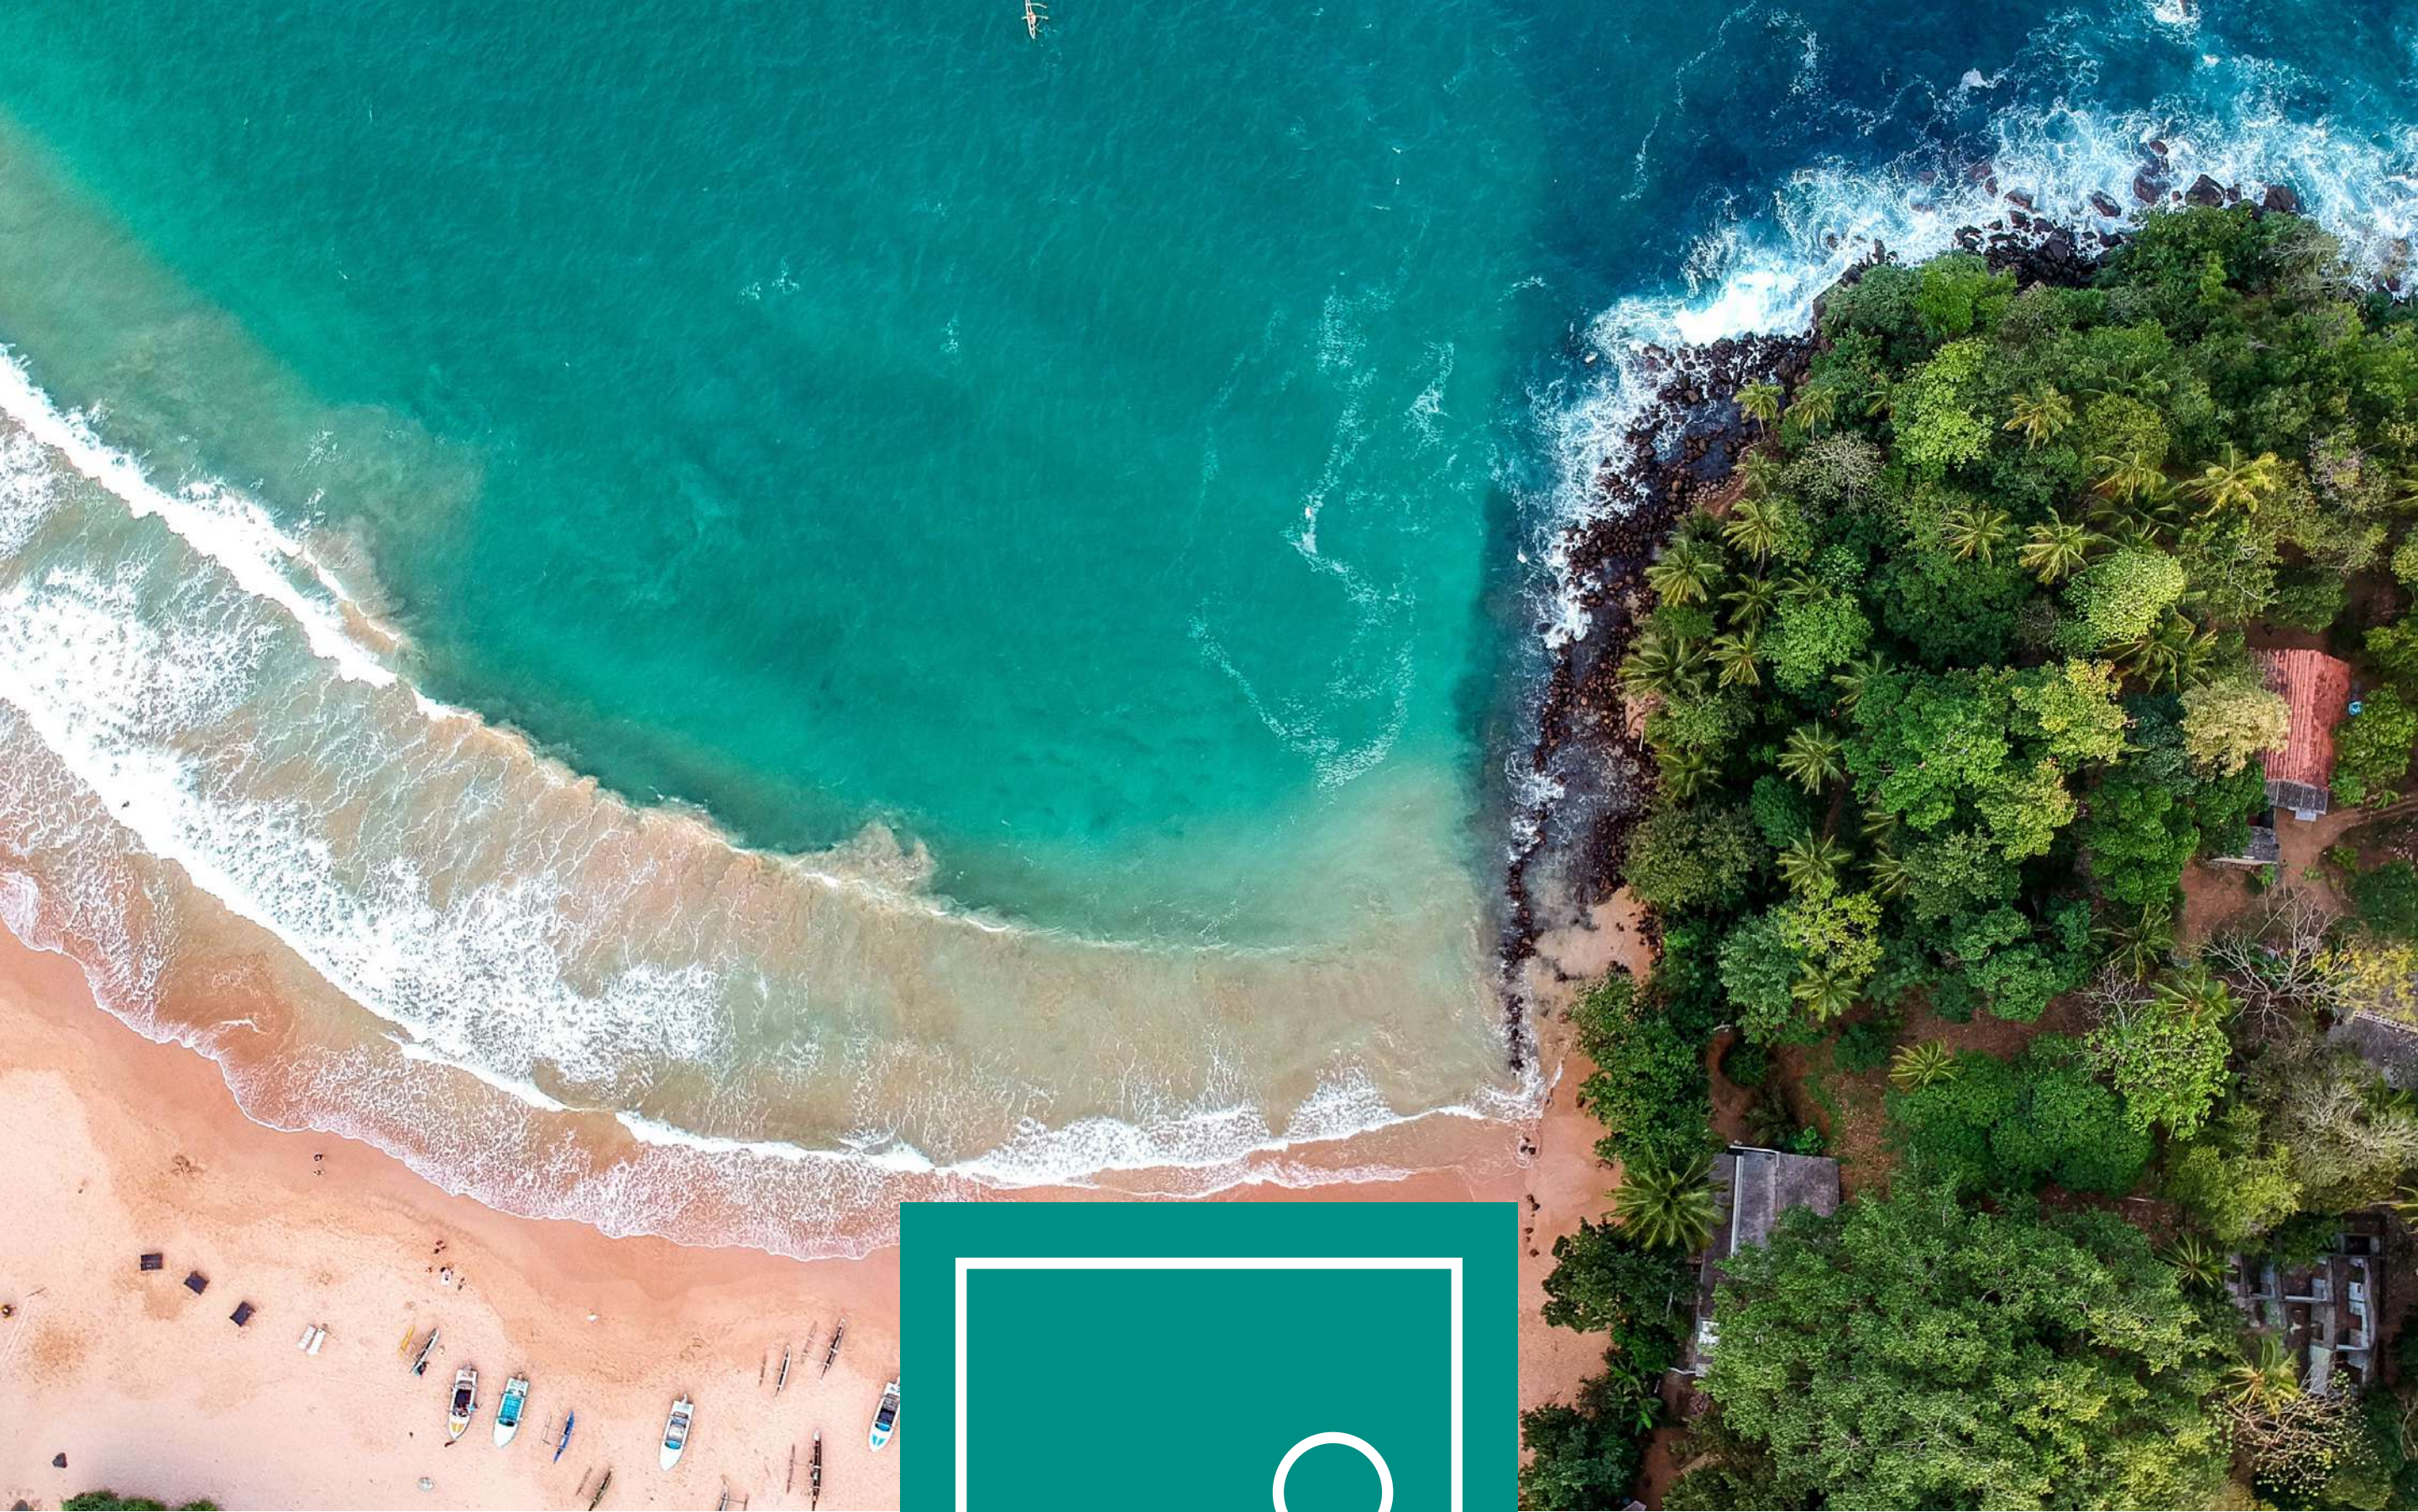

In brief, for over four decades,  
we have contributed  
to the wellbeing of our country and  
to this day we continue to do so.

We are LANKATILES,  
and Sri Lanka is at the heart  
of everything we do.

Fine Living Redefined

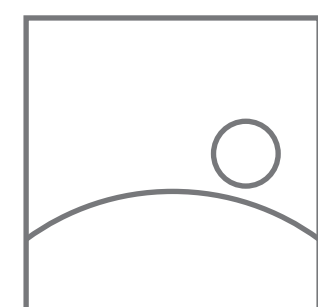

## ISLAND LIVING

There is a rhythm to island life... Where a walk is a dance...  
Where there is work life flexibility... Where fun is serious...  
and where songs rise out of the sea...  
There is a rhythm to our Island Living and  
that beat is our inspiration...

## FORESTS

Our Forests come in many forms...  
They can be up in the hills...or they can be down in the plains...  
They can be fed by the rain... or sculpted by the sun...  
They give us the very air we breathe...  
And they are a playground for life itself...  
Our Forests are the verdant heart of our nation,  
and they are a living inspiration for us...

# SPIRITUAL

We are an island of believers...  
Our faith unites us and moves us...  
Our Spirituality uplifts us... It builds monuments to devotion...  
And oases of tranquility...  
Our Spirituality is a distinct fusion of beliefs, practices,  
and philosophies... And we are inspired by it all...

## URBAN

Our towns and cities are different...  
You see something new every day...  
People move with purpose...or wanderers  
Seek new adventures... There are towering edifices to modernity...  
Next to soothing spaces of old that have been renewed...  
And we are inspired by them all... Our Urban spaces...

## **MOUNTAINS**

Our Mountains are majestic...  
They can be life giving... Even sacred...  
They rise with breathtaking beauty...  
And their heights bear marks of our history...  
On occasion, they can be intimidating...  
But to us, our Mountains are always inspiring...

## HERITAGE

Our Heritage is an epic, millennia in the making...  
It lives in stone carved by the craft of centuries...  
It is an archive of architectural excellence...  
Yet our heritage is not ancient history, it sustains us to this day...  
It enlivens us through intricate artforms...  
And to us our Heritage is the embodiment of our nation...  
And that inspires us...
